Mr. Randy Mitchell  
Public Service Commission of South Carolina  
101 Executive Center Dr., Suite 100  
Columbia, SC 29210

Dear Mr. Mitchell,

I am a Dorchester County Councilman and also a candidate for State House District 98 in 2010. I am receiving complaints and concerns from citizens in my county about the high electrical rates being charged by SC&G. Our citizens are now learning of SCE&G's request for a 9.5% rate increase while other electric utility providers are lowering their retail electrical rates. With the current economic condition in South Carolina, SCE&G request for a higher retail electric increase is not warranted.

I respectfully request the PSC to deny the requested rate increase from SCE&G and to perform an audit of the company to determine if their present retail electric rates being billed by SCE&G to customers are justified.

Thank you very much for your help with this important request from many of our good citizens in Dorchester County.
